- suitable for installation in Zones I and II
- built-in models supplied with galvanised steel, telescopic wall liner, internal and external wall grilles and 5 speed controller

SPECIFICATION

- casings formed from shockproof and heat resistant plastics
- motors mounted on self lubricating, sealed for life bearings for long life and quiet running
- motor protected with thermal cut-out
- double insulated
- maximum ambient temperature 40°C

COMPLY WITH

- CEI61/28 - IEC342-1
- EC Low Voltage Directive 73/23-93/68
- EC Directive EMC89/336
- CE marked
- Keymark Approved

RANGE

- **AVX23/9A**
9"/23cm automatic
- **AVX23/9AR**
9"/23cm automatic, reversible
- **AVX30/12A**
12"/30cm automatic
- **AVX30/12AR**
12"/30cm automatic, reversible
- **AVX23/9ARB**
9"/23cm built-in, automatic, reversible
- **AVX30/12ARB**
12"/30cm built-in, automatic, reversible

5 Speed Controller included with all reversible models

TYPICAL SPECIFICATION

Supply and install an AVX30/12AR automatic, reversible window/wall fan as supplied by Vectaire Ltd, Lincoln Road, Cressex Business Park, High Wycombe, Bucks, HP12 3RH.

This fan is to be suitable for installation in domestic or commercial premises into solid or cavity walls, single or double glazed windows or in a ceiling.

It is to be operated by a remote 5 speed controller (included with the fan) which also allows reversibility and the fan shutters to be left open for natural ventilation. The shutters should be of the silent opening, slow moving type. It should be splashproof to IPX4 allowing for installation into Zones I and II. The fan casing should be formed from shockproof and heat resistant plastics and the motor be quiet running and of the shaded pole type mounted on self lubricating, sealed for life bearings for long protected with thermal cut-out.

Fan to comply with all current IEE, EC and Building Regulations requirements and be keymark approved.
